Yesterday [REDACTED] of Classification called to check the status of the job description which was sent over for [REDACTED] position. I told him you were holding it for review and possible changes. 25X1A

Today [REDACTED] also of Classification, called to say that if the description becomes a question of grade for the position, as it is written for a GS-6, it must be taken up with [REDACTED] as he made the final determination for that 25X1A job. However, if it is to be re-typed into a different type of job with different functions not on the present description, then [REDACTED] will handle it. [REDACTED] 25X1A said if you wanted to argue about that job as now written for a GS-7, it is out of his hands and should be handled by [REDACTED] 25X1A

Mr. Houston:

25X1A

[REDACTED] of Classification returned this Personnel Action request to be held together with the rest of the job description being worked on in the Office.

25X1A

[REDACTED] said he understood some of the duties in [REDACTED] office were being transferred to I&S, which would affect the job description as now written anyway.
